Boy Scout Financial Drive Here Friday

Scouts Will Plant Tree For Every Man in Service; Rickenbacker Backs Scouts

The annual Boy Scout Finance drive will start Friday, Feb. 19. The theme of Boy Scouts everywhere is, "Toughen up; Buckle down; Carry on to Victory." Scouts are facing their present duties with new spirit—a spirit symbolic of loyal Americans everywhere.

The Boy Scouts of Randall county are going to make use of Natural Resources by planting a small tree for every boy who has gone into the Service for his country from Randall county. In this way the boys will put to use much idle land, and be aiding in putting to use millions of waste trees.

When Captain Eddie Rickenbacker recently addressed a group of Boy Scouts in New York he said, "It is our duty to train our youth to use their heads as well as their hands, to coordinate them. . . . You could serve no greater cause than the Boy Scout movement.

The drive will start Friday morning at 8 o'clock after a breakfast, under the direction of Dr. Lee Johnson, Commander-in-Chief; Captain Hosea Foster, of the Rotary Club, Navy; Captain M. E. Cantrell, of the Lions Club, Army; and Captain Mrs. T. H. Knighton, Air Corps. The drive will close at 7 o'clock with a district meeting at the City Hall.

Dr. Hill will be the guest speaker at the breakfast. The breakfast will be served in the Home Economics dining room at West Texas State.

The Lieutenants serving under Captain Foster are: Boone McClure, Gordon Lyons, Dr. Robert P. Jarrett, W. A. Warren, H. T. Rhoades, C. L. Thompson, George A. Farlow, Bill Smith and J. W. Kleinschmidt. The ones under Captain Cantrell are: Clay Cooper, A. K. Goodman, Mitchell Jones, Milton Morris, Joe Findley, Levi Cole, Delbert Lowes and E. W. Woods. The ones under Captain Mrs. Knighton are: Mrs. Spencer P. Whippo, Mrs. W. F. Hazzard, Mrs. Charlie Elkins, Mrs. D. A. Nicholas, Mrs. M. E. Cantrell and Mrs. Irene SoRelle.

College Reserve Boys Are Called

First Large Group of Men Will Go to Lubbock For Military Training Saturday

Anticipated calls to active duty were delivered Saturday to nearly a score of West Texas State men, who must report to the induction office at Lubbock at 8 o'clock Saturday morning.

Other calls probably were delivered to reservists not enrolled this semester.

The calls ended 'business as usual" on the campus by listing Hud Prichard, editor of The Prairie; William Stockman, captain of the Buffalo basketball team; Ralph Owens, student manager of athletics, several student assistants, and members of the Student Senate.

The men called will be sent to training centers of the U. S. Army Air Forces. Among those who received telegrams were:

Bill Stockman, Hud Prichard, Ralph Owens, E. Burroughs, Lowell Potter, Guy Hazlett, Billy Patman, Cecil Williams, Lawrence Hohlaus, Stanley Curyea, Robert Bruce Brown, William Haskell Driskill, Dennis Kern, Robert Wilson, Jim McCandless and George Hohmann. Howard Weatherby leaves Feb. 22.

Group of Men Will Leave for Physical Exams

A group of men will leave this afternoon for Lubbock where they will take their physical examinations for the army.

In the group are: Felix Arthur Pierce, Robert Louis Alexander, Horace Newton Dickson, Holland LeRoy Fleming, Leo Franklin Hall, Merl Wayde Pruitt.

Hugh Gwendel Duncan, James Dale Brock, Charles Robert Buell, Wayne Cay Talbert, Jimmie Otis Priest, John Ed Carthel, Vaughan A. Vandergriff.

Billy Brice Kimble, Wallace Hollis, Jr., William Arthur Nickelson, L. J. Turley, Eugene Lloyd Lippard, Ralph Earl Blankenship.

Roland Bert Hicks, Jr., Buford Allison Cummins, James Harvey Thomas, James Alfred Johnson, Wilbur Wesley Anderson, Charles Lannie Line, Joe (Jack) Wilson Brian, William Keith Carlson.

Two or more other boys are trying to get lined up to go with this large delegation and may be cleared by the time the bus leaves at 4:30 p. m.

17 Year Olds to Be Taken by the Army and Navy

Boys 17 years old may now enlist in either the army or the navy.

Under executive orders voluntary enlistment of men 18 to 38 was stopped Dec. 8, and all men are sent into service through Selective Service.

Under this new regulation boys 17 years of age may volunteer in the branch of service they elect before they register on their 18th birthday. After they are registered they must go through Selective Service.

James W. Butler Undergoes Operation

Word from Longview, Washington, is that James W. Butler underwent an emergency appendectomy last Monday. His condition was reported to be good.

Mr. and Mrs. Butler left Canyon last June for Washington. Mr. Butler entered Volunteer Officer Training in September but was discharged because of physical disabilities. He has been trying to get into some other branch of the service since then.

Mr. Butler was a member of the Speech Department of West Texas State before leaving last June.

L. D. Winn Lost Thumb in Accident

L. D. Winn lost the end of his right thumb last week. He was repairing a tractor when the machine fell on his thum cutting it off at the first joint.

Low Fire Rates Are Continued For City Canyon

Canyon has the lowest fire insurance rate that is possible. There is a 65% credit on residential insurance rates because of the fine record that has been made during the past years.

The city has enjoyed this low rate for the past year and it has been renewed for the coming year, starting March 1.

There have been few fire losses, and none of any consequence. The equipment of the fire department and the night watchman service have made these low rate possible.

J. D. Breitling Is Home on Furlough

J. D. Breitling arrived home Tuesday night on a 30-day furlough. He was a member of the Pensacola crew and has been in action against the Japs. The ship was so badly damaged that she was brought into dry dock for repairs.

Mr. Breitling received a 30-day furlough in order to come home for a visit. Arriving home he saw his baby for the first time, which was born while Mr. Breitling was on duty on his ship. He is the son of Mr. and Mrs. J. M. Breitling of Canyon.

Arthur Lee King Died Last Night

Arthur Lee King, 66, died last night. He has been a resident of Canyon for 11 years.

The body is at the Griggs-Thompson Funeral Home pending funeral arrangements.

He is survived by a brother, B. E. King of Canyon; two aunts, 'Mrs. Delia Bull of Dalhart and Mrs. J. K. Underwood of Wichita Falls; two cousins, Mrs. O. G. Steen and Mrs. Leigh Bull of Canyon.

OPERATION ON EYE

Wm. Schmitz had an operation on his right eye last week. A growth was removed, which he hopes will cure a defect in the vision.

Cpl. Jack J. Nickelson of Sioux Falls, South Dakota, visited his parents, Mr. and Mrs. A. G. Nickelson last weke.

Lieut. Robert H. Bright Received Army Commission

LIEUT ROBERT H. BRIGHT

Lieut. Robert H. Bright was home over the week end to visit at the home of his wife, who is in the music department of West Texas State.

Lieut. Bright completed his officer training at Camp Davis, N. C., last Thursday and came to Dallas by plane where he was met by Mrs. Bright. He will return today to Camp Davis where he is assigned to Field Artillery, anti-aircraft.

Lieut. Bright was a member of the music department of the college before starting officer training.

10 More Aviation Cadets Are Here Start Training

Ten more naval cadets were received Friday for aviation training at the West Texas State Flying School. There are now 37 men taking instruction.

G. W. Cox, flight contractor, has three new pilot instructors, Bill Harris and O. T. Mann of El Paso, and Gerald Gunter of Hot Springs, Ark. These pilots are assigned by the government, and are working under the direction of K. G. Fincher, head pilot.

Local Boys May Take Military Drill

Instead of having military drill at the Legion Hall, local boys and men may join College boys in drilling at Burton Gym, states Lieut. Reeves Donnell.

Those interested in taking this work should meet Lieut. Donnell at the gymnasium Tuesday night at 7:30 o'clock. It is required that all men have rubber sole shoes for drilling on the gym floor. There will be drill outside when the weather permits.

Buffs Won First Game of Tourney

Tournament at Albuquerque For Border Conference: Capt. Stockman Not Playing

The Buffs, defending champions of the Border Conference, won their first game in the tournament at Albuquerque last night. Arizona State of Flagstaff was defeated 60-44 by the Buffs. The Buffs play Texas School of Mines tonight.

A pair of victories over the fast Texas Tech five have marked the West Texas State Buffaloes as a team which is going to be hard to beat in the Border Conference title tournament in Albuquerque, N. M., February 17-20.

Although pressed hard all the way, the locals rallied to beat Tech by scores of 52-49 and 56-47.

Coach Gus Miller saw his hopes fade somewhat, however, when Captain William Stockman received a call to the Army and Ray Ellefson, 6 foot 9 inch center, contracted an illness. But the Buffs otherwise will be intact and will start the following veteran lineup:

Forwards — Ledru Jacobs and Douglas Groom.

Center—Clark Johnson.

Guards—Charles Johnson and Norman Trimble.

West Texas State has won 12 out of 18 games played. In some of their losses they looked powerful but luckless; in some of their victories they appeared far below the caliber of last years conference champions. In their best games, such as those played at Texas Tech last week, they seemed to have found their potential ability.

The Albuquerque tournament is expected to write the finale on local sports "for the duration." Movement of athletes into the armed services and rules barring reservists from competitive play can only mean a cessation of organized athletics, Coach Miller believes. Most coaches in this area will be engaged in physical training of military groups.

Cold Wave Here Drops Mercury to 14 Above Zero

Another cold Wave swept the Panhandle Monday night. The temperature dropped to 14 degrees above zero during the night.

Tuesday was a disagreebale day, with a strong southwest wind blowing a greater part of the day.

There was considerable moderation in temperature yesterday. No moisture has failen here since the first of January.

IN AMARILLO HOSPITAL

Mrs. S. L. Terry has undergone an operation in an Amarillo hospital.

Air Cadet Mabry C. Vandergriff

AIR CADET MABRY C. VANDERGRIFF, known to Canyon friends as Bo, is now training at Orangeburg, S. C. He went from Canyon with Company F in January, 1941, but was transferred to the Army Air Corps 5 months ago. He took his pre-flight training at Montgomery, Ala. Bo graduated from the Canyon high school in 1939. He is the son of Mr. and Mrs. W. L. Vandergriff of Canyon.

Mrs. B. F. Machen has been returned from the Amarillo hospital where she was under treatment for several weeks. She spent some time at the home of a daughter in Amarillo before returning to her home here.

Mr. Machen was sick for the past week, but both are now feeling much better.

PARKER IS TRANSFERRED

A. D. (Beans) Parker has been transferred from Fort Sill, Okla. to Camp Kohler, Sacramento, California. Mr. Parker entered the service January 25th.

Bill Cone Writes From Foreign Port

From some foreign port which because of censorship could not be stated, Bill Cone is at present stationed with U. S. air forces. He writes that he is "slow with the Arab language but managing to get by with the French."

Cone, W. T. graduate and former editor of The Prairie, is a bombardier. He writes about parties with young French soldiers and French girls. The latter, he says, cannot go out to a restaurant for dinner with a young man without considerable damage to their reputations.

Cadet Howard Boling Is In Hospital

According to word from the San Antonio Cadet Center, Cadet Howard E. Boling is in the hospital for treatment. He injured his back last summer while working in Canyon. According to information received from the hospital by his mother, Howard may be under treatment for about 6 months.

Lieut Wm. Boyce Is Now in Africa

Lieut. Wm. Q. Boyce is now in North Africa with the American troops.

Lieut. Boyce was the first man to go from Randall county to take Officer Training and was commissioned 2nd Lieutenant in the Intelligence Department. He was in England when our troops landed in Africa.

Recap Certificates Necessary to Mar. 1

The News announced last week that it was no longer necessary to secure certificates for tire recaps.

While the change in regulations were announced Monday of last week, it was later changed so that certificates are still necessary thruout February. Starting March 1, certificates will no longer be necessary.

Smaller Number Schools Register

Must Declare Surplus Foods and Have Book No. 1 Before No. 2 Book Issued

Registration for Ration Book No. 2 will not start in Randall county until Thursday, Feb. 25. Registration should be completed in one day, is the belief of members of the War Price and Rationing Board. School teachers will issue the new books.

There will be two registration places in Canyon: The public schools and West Texas State Demonstration school.

Registration will be held at Umbarger and at the Alice Landergin School in South Amarillo.

Citizens who live near the border of the county may register and secure Ration Book No. 2 at Happy, Bus'iland, or at the Bivins school in West Amarillo.

A copy of the consumer declaration is printed on this page. The person who is to represent each family should study this declaration and be ready to answer all questions promptly when they go for their ration books.

Canned goods will be "frozen" at all grocery stores Saturday night, and none will be offered for sale until March 1 when the rationing program is started. No one will know the value of various kinds of foods, or will know just what is frozen until next week.

Here are the things to do to be ready to get the new books:

In every household, someone must count the cans, bottles and jars 8-ounce size or larger of fruits and vegetables, on hand at midnight, Saturday, Feb. 20. The count must include canned fruits, canned vegetables (including spices) fruit and vegetable juices, soups, chili sauce, and catsup. Take from the total five cans for each member of the family. The new total must be reported on the Declaration form, or if there are no more than five cans each, the report will be 'None.'

These are not to be counted: Canned olives, canned meat and fish, pickles, relish and jams, jellies and preserves, spaghetti, macaroni and noodles, home-canned food, if not canned for sale.

Persons who are not living as members of their family group must make their own Declarations and get their own ration books.

Coffee on hand November 28, must be declared, minus one pound for each person whose age stated on Book 1 is 14 or over.

Remember to take Book 1 of all persons listed on a Declaration to the registrars when applying for Book 2. No Book 2 can be issued unless Book 1 is presented at the place of registration for 'tailoring.'

College Orchestra To Give Concert

The college orchestra is to present a program Thursday, Feb. 25. The program will include two soloists, Jean Tarlton, violinist, and Vesta O'Dell, pianist.

The numbers to be played are as follows:

"Symphony No. 112 in B" by Haydn; "Concerto No. 3 in G Major" for violin and orchestra, by Mozart, featuring Miss Tarlton in the solo part. "Suite Ancienne" by Hadley, "Dance of the Dragon" from the "Nutcracker Suite" by Tschaikowsky, "Waltz" from "Sleeping Beauty" by Tschaikowsky; "Concerto No. I in G Minor" for piano, by Mendelssohn played by Miss O'Dell and accompanied by the orchestra; "Overture to Rosamunde" by Shubert.

The orchestra is directed by Robert Louis Barron. The public is invited to this program in the auditorium.

Carl W. Prichard Is Promoted to Corporal

Carl W. Prichard has been promoted to the grade of Corporal at the Army Air Force Advanced Flying School at Stockton Field.

Carl is a son of Mr. and Mrs. E. W. Prichard of Canyon. He graduated from the Canyon high school in 1936. He was inducted in the armed forces on February 14, 1942, and after completion of his basic training was assigned to this field.

Two More Boys Are Registered Here

TOO MUCH CONFUSION

It has been pointed out many times in recent months that Washington is keeping the people in a state of constant confusion. There are too many bureaus working at cross purposes, each seeking to have the advantage over other bureaus.

Every American wants to win the war; to win it as quickly as possible; and with as little loss of life as possible. When death lists are posted, every American citizen feels that he has sustained a personal loss in the supreme sacrifice which has been made by every American boy who has died for the principle of Democracy. Confusion will not win the war, but confusion could easily add months to the duration of the war.

Our bureaus in Washington are keeping us in turmoil. Some one thinks up a so-called clever idea, and rushes to the newspapers and radio to spread the news. Too often there is total disregard of the effect this big idea will have on other departments of government. These clashes of ideas, as between multiple bureaus and 2,000,000 government employees, certainly cannot result in very sane conclusions in the haste of winning the war.

The manpower confusion is becoming more and more confused. The men of America are willing to work where they are needed, and fight when they are needed, but there are so many changes of ideas and changes of orders that no one can know where he is deemed necessary, and when he will be switched from the essential to the non-essential classification.

Washington is not entirely to ditions change from day to day. blame. This is a fluid war. Conditions change from day to day. The type of men and machines which are needed today may become unnecessary over night. There are thousands of planes and other type of war machines which were manufactured early in the war, but have become entirely obsolete today because of changing conditions.

While thousands of men may have been needed in some branches of the service during the early periods of the war, conditions have changed to make their branch of service almost needless today.

Since this is strictly a mechanized war, it takes longer to train men for battle than it has ever done in past wars. A bomber is an expensive machine. It carries a large crew of men. The machine and its guns must be perfect. But of greater importance is the manpower directing the bomber. If the pilots and gunners and navigators do not know their jobs, the plane would be better off on the ground than in the air.

Congress is being urged to limit the manpower of the armed services. It is argued that an effective army of limited size would be more powerful than a poorly equipped and trained army of unlimited size. A few radio commentators and some newspaper writers have joined Congressmen in demanding that recruiting stop.

The farm block says we will all starve if farmers are not released from the army.

The munitions block succeeded in the early stages of preparation in getting these employees deferred as essential to the war. As a result, about 2,000,000 single men are now engaged in the various manufacturing plants which turn out war orders. Most of them went into these plants long before Pearl Harbor.

Selective Service officials announced Saturday night that the army would be increased to 11,200,000 men before the end of this year. Where are these men to be obtained? The answer is married men with dependents will be taken.

How are we going to equip and maintain such a large army? The answer is, induct millions of women into industry.

How are we going to feed the army and the millions working in war plants? The answer seems to be that farmers will be exempt from military duty, and it is likely that thousands of them will be discharged from the army.

This all adds up to the fact that every man 18 to 38 years of age who is not classed as an essential worker, as a farmer or in a war plant, may expect to be in the army before the end of the year, regardless of dependents.

Here is where Selective Service local boards will have a big and prolonged headache. It is a hard job to send any man to the army, but when it comes to separating a husband and father from his family, while a couple of million of single men remain at home, because of their jobs—there is where the tough job comes in.

We wish that we knew the answer to all these problems, and would be able to tell all of the men just how they would be classified, or when they will be inducted into the army—but with all of the prevailing confusion, we simply do not know the answers.

It is pretty evident that Russia will have the big say when it comes to writing the peace. It is now evident that Stalin is going to run the Germans out of Russia in the course of the next year. When that is accomplished, will Stalin be satisfied, or will he continue fighting the Germans and march into Berlin? Japan will have something to do about the course of Stalin? If the Japs should attack, the Russians would be slowed down in their fight against Hitler. If the Japs leave Russia alone, it could be likely that Stalin would leave Japan alone and let the United States and England bankrupt themselves fighting the Japs during the future years. No one knows how to figure on what Stalin will do. Even though he saved the necks of the United Nations, we are naturally a little suspicious as to what he will do once Hitler is whipped.

Pappy O'Daniel is making himself very unpopular by traveling around over the nation and making speeches to State legislatures. Pappy was re-elected on the strength of his promise to support President Roosevelt. He was in the isolationist group before he went to the Senate, and his speeches indicate that he is still with this gang. It is rumored that our Senator has higher political ambitions. The Republicans are looking for a man to run against President Roosevelt next year. Willkie is nominal head of the Republican party. He is opposed by the old guard, where Tom Dewey is strong. Just wondering aloud: Could Pappy have such ambitions?

Where has all of the glass in the streets come from, and who broke it on the pavement? Maybe children have been breaking bottles on the pavement; and maybe it is older "children" who are guilty. At any rate, too much glass is being thrown on the streets of Canyon. With casings impossible to secure by civilians, it makes the driver hold his breath as he sees broken glass on the pavement—glass which may cause him to ruin a casing which is good for thousands of miles of careful driving. Please be careful and do not break bottles or throw glass on the streets.

Wheat pasture is the finest the Panhandle has ever had. Many farmers have reported that even though they do not make a wheat crop this year that they will have had splendid returns on their wheat from the pasture. That is good news. Incidentally, there are more cattle in Randall county today than there has been for many, many years. Cattle these days mean money—the largest amount of money stockmen have seen for many years.

President Roosevelt made it very plain to the world in his talk Friday night that not only one second front, but several other fronts will be opened against Hitler. He said all that he dared say without telling the Germans the war plans which he and Churchill devised.

The successful man is not just a "lucky" man. He refuses to put all his chips on the frailities of fortune, but works day and night to make his success certain.

Why so pale and wan, fond lover?
Prithee, why so pale?
Will, when looking well can't move her,
Looking ill prevail?

America Can't Afford to Have You Hoard

BUY JUST WHAT YOU NEED

Let's Be Fair!

These days may be a test of patriotism for a lot of our people. There may be an incentive to hoard, just at a time when hoarding is unpatriotic and unnecessary.

Don't be like the woman pictured here, who is putting self above country.

Again we say, there is plenty of food for all. No one will starve, and none of us will suffer because we have to readjust our habits. Let's play fair with those who are fighting this war by not hoarding—and by declaring the foods we have on hand.

Silver Wings Go To Navy Cadets

Twenty Men Honored At Assembly; Speech Of Leaders Analyzed

Silver wings were presented to twenty Naval Aviation Cadets by President J. A. Hill in a public ceremony at West Texas State College Thursday by direction of Naval authorities.

The wings were in recognition of elementary flight instruction at various fields in Texas. The cadets are taking an intermediate precision course at West Texas State. Ten other cadets are taking preliminary instruction here, while seven men are now eligible for flight training on an extra-curricular basis.

George Cox, flight contractor, now has five instructors and ten planes available at the West Texas State Flying Field.

Recipients of the silver wings were:

V-NEWS

We should have one orange a day or its equivalent to furnish Vitamin C. For a family of four that would mean more than two dozen oranges a week. Can we afford this? Sauerkraut and uncooked cabbage are good substitutes for oranges.

Sauerkraut and cabbage are Victory Food Specials which means that the government is urging us to build more meals around these hearty vegetables.

Here are some suggestions for serving them:

Russian Soup

Cover 2 cups of kraut and 1 lb. of short ribs of beef or other stew meat with boiling water and simmer. When meat is tender, brown 2 tablespoons of flour in a frying pan, stir constantly to prevent burning, add 2 tablespoons of liquid and blend into a smooth past. Add a little more kraut and meat broth to make a sauce. When it is well blended stir into the soup. Bring to a boil and season with salt, pepper and sugar to taste. Serves four.

Spareribe and Sauerkraut

3 lbs. of spareribs, cut in pieces
½ teaspoon salt
4 cups kraut, drained.

Wipe spareribs, place in large kettle, add salt, cover with boiling water and simmer, covered, ½ hour. Add kraut, bring to a boil and cook uncovered ½ hour. Serves 6.

Pig's knuckles may be prepared in the same way cooking the knuckles until almost tender, then adding the kraut the last half hour.

Sauerkraut with Apples

To 2 cups of sauerkraut add 1-4 cup fat, 1-4 cup water, 3 apples, peeled, cored and quartered, 1 medium sized onion, sliced, and cook until tender. Add ½ teaspoon salt, 1 teaspoon sugar, ½ teaspoon caraway seeds and two small potatoes, grated; cook 5 minutes longer.

Cabbage-Beet Salad

Combine chopped cabbage, apples, beets, and grated carrots. Toss together with a cream or French salad dressing.

Cabbage makes a splendid "filler" for almost any kind of a vegetable salad. Try cabbage, drained, cooked green beans and hard-cooked eggs mixed with French dressing.

War Plant to Get Instruction

Cactus Employees at Etter Sign for Five Courses on Mondays

Five federally sponsored classes at the Cactus Ordnance Plant at Etter, near Dumas, will be taught by professors of West Texas State under a plan just completed.

The courses will be taught in cooperation with the U. S. Office of Education under the Engineering, Science, Management War Training program. Details were worked out with Cactus officials by Virgil Henson, business manager of the College.

Dean R. P. Jarrett will teach a course in industrial psychology. Dr. S. H. Condron will offer a class in personnel management and supervision. "Job Analysis" will be taught by Dr. A. M. Meyer. Elementary accounting will be taught by Dr. Lee Johnson and cost accounting by Prof. W. F. Haggard.

A total of 101 students was reported at the first registration. Classes will meet on Mondays at 7 p. m. for three hours. Classrooms are in the Cactus administration building. Students pay only the cost of their textbooks.

Similar courses may be offered at other Panhandle war plants if sufficient demand is indicated.

The instructors will leave the campus at 3:30 p. m. and will return about midnight. Their evening meal will be eaten at the Cactus cafeteria.

Chemistry in War Discussed Tuesday at Rotary Lunch

Dr. Chester Pierle was in charge of the Rotary Club program Tuesday. He discussed the part Chemistry was playing in the war. Dr. Pierle is head of the Chemistry department of West Texas State.

There have been few new developments in chemistry since the last war, stated the speaker. The part chemistry is playing is to apply what had already been discovered.

In 1924 Dupont announced they would go out of the munitions business. The government insisted that the machinery be saved and stored ready for any national emergency. Exposives are now coming off the line as fast as they can be moved to the fronts.

Dupont continued experiments with explosives, and as a result improvements in TNT have been made, and other explosives improved to increase firing power. The greatest improvement was the perfection of the explosive fiviting.

Dr. Pierle does not believe that the Germans will resort to gas in this war. There has been no particular changes in gas warfare since 1918, but if Hitler resorts to gas, the United Nations have penty of it available. The quick and rapid movement of troops in this war is not conducive to the use of gas. Gas could be used on civilians. Safety in handling has been improved.

No provision was made in advance for a rubber substitute. If the same foresight had been used in rubber as in munitions, the nations would not be in such a bad condition today. No one believed that the Japs would be able to take all of the supply.

Entrenched interests have handicapped the development of other vital commodities in the nation.

It takes four years for men to learn much about chemistry. The army has not utilized the knowledge of the men who have been drafted into the armed services.

George Allan Farlow was elected vice president of the cub taking the place of Lee Johnson who was recently elevated to president. He is a charter member of the club and has a perfect attendance record for more than 12 years.

Rev. Robert Jones was introduced by Rev. C. C. Armstrong as a new member.

Visitors were: Arch Hunsley of Amarillo and Hallie Earthman of Plainview.

Want To Help Uncle Sam?

...Then Do These Things Before Calling the Serviceman

He's mighty busy doing war-vital work!

First, if an appliance fails to work ... see if it's connected. You'll be amazed how often a disconnected extension cord is the only trouble.

If only one light is out, replace the bulb. If several lights go out, check the fuses. Replacing a burned out fuse may be all that's necessary ... and you can change a fuse as well as the serviceman. You'll save yourself inconvenience and delay, too!

If ALL your lights are out ... all your fuses are okay ... and your neighbors' lights are out, too ... then call the serviceman.

... and for more light with no more electricity here's another tip ... *clean light fixtures increase light 20 to 40 percent!*

A Customer Came In Our Store

She wanted a tub; "We are out," we said; she wanted a percolator, a double boiler, some spring clothes pins and a mop stick but we had to repeat, "Sorry, but we are out of all these items."

We are NOT out of everything you need. We still have lots of merchandise, but this "out" business is an every day occurrance. It is very embarrassing to keep repeating it on so many items. It almost makes us want to pull our hair. But there's a good reason for the "Outs" of merchandise made of critical materials.

Just stop and think a moment. Someone, perhaps a soldier, has been directly benefited by this very merchandise or the material of which it was made.

It is indeed a very small contribution and an insignificant denial of our personal comforts that we are called upon to endure in our National war effort.

So we should smile and be thankful for uncounted daily blessings that a kind Providence bring each of us, we are very fortunate after all and are rich in many things others do not have.

New types of merchandise are being developed and offered almost daily and you may be assured that our stocks will be maintained as complete as possible consistant with the war effort, and our usual good service will be kept up to the best of our ability.

Sketches of Progressive Men & Civic Leaders of Amarillo

This department has been worked up as a reflection of public opinion. No man has written of himself or his business, all articles having been compiled by a Canyon News representative as he saw conditions. These men are laders in their various lines of endeavor, and the co-operation of those citizens of Amarillo who helped to make this department possible is sincerely appreciated by the publishers of the News. All material hereunder fully copyrighted and all rights to any part thereof reserved.

Bob J. Johnson & Ed. F. Putman

Amarillo owes much to those progressive citizens who have taken an active part in the growth and progress of the city and who have helped to make it the business center of the Panhandle. In mentioning some of these men it is only fair to include Bob J. Johnson and Ed F. Putman of the Palo Duro Motor Tune-up.

They deserve a great deal of credit for their success in business and civic activities. Their main interests have always been devoted to the welfare and building up of a great Amarillo. The value of such men to the community cannot be overestimated when taking into consideration the many things they have accomplished that have been such an asset to their city and this district.

Bob Johnson and Ed Putman are wholly deserving of our sincere praise, and these few words of commendation are but a just recognition for the many activities they have conducted on behalf of the general welfare of the community. The honest and successful conduct of their business affairs is but a reflection of their character. We trust they shall continue to serve Amarillo and vicinity for many years.

Ray L. Jeoffroy

Civic pride is one of those things that go hand in hand with success; because a man must have been successful to fully appreciate the advantages that were offered him by the community in which he lives.

Mr. Ray L. Jeoffroy of the Jeoffroy Mfg. Co., is one of those business men of Amarillo who has shown his appreciation for his success by his attention to all civic matters. His willingness to become a cog in the wheel of community progress when united effort was needed to put over some movement or project for the good of the city, has always been taken for granted.

Mr. Jeoffroy's quiet assumption of responsibility, not only in connection with his own business but in regard to civic matters as well has very often lent a feeling of confidence to others interested in the same movement.

It is worthy of comment that such men as Ray Jeoffroy derive a genuine pleasure from their participation in the business and civic activities of Amarillo. In complimenting him upon his leading position in the community we do no more than express the admiration and respect of his many friends.

H. J. New

We desire in this Amarillo review to call the attention of our readers to the leading position which Mr. H. J. New has reached in the business life of this section. During the comparatively short time he has been the manager of the yeast division of Anheuser-Busch, Inc., in Amarillo he has made many personal friends as well as having earned the goodwill of his associates for the straight forward manner in which he has conducted his business affairs.

Mr. New has worked hard to deserve the confidence which the people of the community have in him and he continues to work hard to maintain in every way that high standard which he has set for himself.

He has shown a willingness to assist in every manner at his disposal in the growth and development of the city of Amarillo and is always ready and willing to lend his support to any project which promises to benefit the community as a whole. H. J. New deserves our heartiest congratulations on the splendid record he has already established and we sincerely hope for his continued success.

V. W. Killough

Mr. V. W. Killough of Killough's Storage, is one of those quiet unassuming, yet progressive business men who has consistently forged ahead in his business. And he has also put his shoulder to the wheels of civic progress whenever his help was needed in furthering civic enterprise which showed definite promise of being beneficial to the welfare of the people.

V. W. Killough was never a man who was given to wishful thinking. His methods are those of direct action, and whether the problem at hand is one concerning his own business or that of a civic nature he attacks it with optimism and vigorous enthusiasm. Add to this his acknowledged business ability and keen sense of values and it is easily understood why he is almost invariably successful in business or civic activities.

We feel it is our duty to call the attention of our readers to these worth-while characteristics of Mr. Killough and to pay him a deserved tribute for his straight forward business methods and for the unselfish interest he has shown in public welfare.

G. B. "Ham" Hamilton

One of the most progressive business men of the city of Amarillo and one who deserves the respect and goodwill of every resident of the city is pleasant, likeable Ham Hamilton of the Hamilton Tire Service, one of the most completely equipped shops in the Panhandle for recapping, retreading and repairing of passenger and truck tires.

The Hamilton Tire Service has become an Amarillo institution and Ham Hamilton is no less so because of his inseparable connection with the firm in the minds of its customers.

He has always been ready and willing to contribute his time and energy to the assistance of any plan which promises to benefit this district and the people of Amarillo may regard with particular satisfaction the many services he has performed for the community in the interest of progressive and civic betterment.

We urge our readers to look to Mr. Hamilton as a man of whom we may be proud. His devotion to his city has been constant and his achievements well merited. His straight forward business methods are a credit to his high sense of honor and the progressive policies he has pursued in the past assure his continued success.

A. C. Peter, Jr.

In making this review of progressive Amarillo business men it is fitting that we include some of those men, who have by their progressiveness definitely established themselves in the business and civic activities of the city.

Such a man is A. C. Peter, Jr., of the Fraser Milling Co., who also deserves an additional word of praise for being more than just a successful business man; he is a consistent and enthusiastic booster of the home community and in his way has done much to advertise the city.

Mr. Peter has pursued the progressive policy of stepping up his business ahead of the times, thus setting a pace for which he has earned the reputation for being a go-getter who does not sit back and wait for business to come to him.

We are glad to pay this tribute to A. C. Peter, Jr. and to point out to our readers that his magnetic personality and enterprising methods are largely responsible for the standing of the Fraser Milling Company in this district.

E. A. Harris

In making this review of progressive Amarillo business men it is appropriate that we include some of those men who have taken an active part in the exploration and development of the petroleum industry in this area. And in doing so we would be censured if we failed to include Mr. E. A. Harris of the Great Lakes Carbon Corp.

Mr. Harris is that solid type of citizen whose fairness and friendliness and sincere desire to be of service and accountable for a large measure of his success. As time goes on his personal interests have become more closely interwoven with the business and civic affairs of the city. As a result he has, quite naturally, become accepted as a man who can be called upon and who will cheerfully do his part to further the development of those community activities on which he is best fitted to serve.

E. A. Harris has, by the conduct of his business and by his attention to civic affairs, earned the friendship and goodwill of his fellow citizens. He is to be complimented upon his activities and we merely express the desire of his many friends in wishing him continued success.

E. E. Davis

We wish in this edition to pay tribute to Mr. E. E. Davis, of the Davis Bumper to Bumper Service, for his many services to the city of Amarillo and his splendid record of achievement in the business life of the city. Mr. Davis probably has as wide a circle of friends as any other person we could name. He has cultivated personal friendships at every opportunity and is at pains to conduct himself in such a manner as to deserve the respect and admiration of all who know him.

A city is fortunate in being able to number among its more progressive business people such a personality.

E. E. Davis is always ready and willing to lend his support to the promotion of any project which promises to benefit this entire district. He may be depended upon and his services to the people are too many in number to be described here. It may be sufficient to say that the publishers of the Canyon News consider Mr. Davis an asset to the community and a progressive business man of whom the city may be proud.

Mrs. Fannie R. Johnson

The progress of any community hinges to a great extent upon the activities of the more progressive men and women in the world of business. This is as true in this locality as in any other sector and local readers are thus to be congratulated for their part in the general advancement of the area's status. One of the more progressive tourist court operators in this section is Mrs. Fannie R. Johnson, who is widely known and universally liked.

Few people have so clearly shown the success possible through the tireless effort and fine contact with the public, and she fully deserves that success for which she has worked so hard.

The success of Mrs. Johnson illustrates the merits of ability grounded in experience and coupled with added asset of a pleasing and sincere personality. The Amarillo Cottage Camp of which she is the owner and manager, is a recognized asset to the business life of Amarillo. We compliment Mrs. Fannie Johnson for the successful management of her tourist courts and hope she will have many more years of continued success.

Alvin Hill

Mr. Alvin Hill the president of Hill Lines, Inc., has won the universal commendation of the people of Amarillo and our community for the progressive manner in which he has kept his company in the forefront of the business life of this district. Also for the efficient and friendly willingness he has displayed in accepting his share of responsibility in aiding civic projects.

Alvin Hill is not the kind of a man who makes himself conspicuous by the manner in which he conducts himself either in business or civic matters. Yet his quiet reserve and air of confidence mark him as a man of sound judgment whose opinion and advice is sought after and listened to with respect.

We compliment Mr. Hill on the successful operation of the Hill Lines, Inc., also for his constructive advice and help in those civic activities in which he has found time to interest himself. He is a man whom many are proud to call a friend.

A. J. Kelly

Performing a valuable service for the people of Amarillo and the surrounding area, Mr. A. J. Kelly of the Mutual Benefit & Accident Assn., a leading insurance executive, has achieved an enviable reputation for his progressive policies of business administration. His constant study of insurance problems in relation to the protection the people both need and can afford have been important factors in his well-earned success.

A. J. Kelly is a man of ideas and he is as practical as he is aggressive in putting those ideas to beneficial use in furthering the service he renders to the people. His sound business judgment and unwavering honesty are characteristics which place him in the front rank of the business leaders of Amarillo. And yet he is unassuming and modest in his personal contact with the people; always ready and willing to listen to their ideas and desires.

We are glad to pay tribute to this type of business leader, for it is such men as A. J. Kelly who have caused Amarillo to become recognized as the metropolitan center of the Panhandle.

Clifford T. Floeck

Recognized as one of the more progressive business men of Amarillo, Clifford T. Floeck, who is running the Moore & Smith Body Shop in the absence of his partner, John D. Davidson, who is now in the army, performs a real service for the people of his city and this district, and his many contributions to civic betterment are too well known to require repetition in these colunms. His personal success has been turned to the advantage of his fellow citizens and he is always ready to assist in any enterprise which promises to advance the welfare of the community.

Mr. Floeck is deserving of praise and this small tribute is but a just recognition of the many services which he has performed in the way of civic and business activities. His reputation for the successful conduct of his business affairs is no greater than his reputation for the honest practices which characterize his every transaction.

We congratulate Clifford Floeck on his splendid record and trust that he shall continue to serve the people of Amarillo and vicinity.

John S. and James McKnight

Most cities if they amount to much are man made. They do not just happen. It has been the realization of its more progressive citizens that their city must grow and prosper and be something other than just another place on the map, that has brought results and made it possible for the city of Amarillo to be an outstanding one, and for those within it to prosper. John S. and James McKnight of The McKnight Co., general contractors, are men to whom much credit must go for playing no small part in the growth and development of Amarillo and vicinity.

They would be the last to mention the matter but when the call goes forth to rally around something worthwhile for the community they are among the first to volunteer. The friends of John and James McKnight are outspoken in paying them this well deserved tribute and they do so because of a thorough knowledge of their activities. Successful in their own business, they are equally as successful in the promotion of civic progress.

W. H. "Potts" Ingerton

Mr. W. H. Ingerton of the Ingerton Saddle Shop, has a well earned reputation for progressiveness, because he has consistently forged ahead in business never letting up in his efforts to make the service his company renders to the people more valuable. This invariable policy has made the Ingerton Saddle Shop, outstanding in their field, a fact that is well known to the public.

But Potts Ingerton has accomlished much more than just making a success of his business and we take this opportunity to pay tribute to him for devoting all of the time he could spare to the welfare, not only of his own city, but of this entire district as well.

It is such men as he who are both successful in business and appreciative of their civic obligations, that are deserving of recognition. We take pleasure in publicly giving W. H. Ingerton the credit for his accomplishments which his friends and associates have so long accorded him.

C. M. Figh

Due to the efforts of a group of wide-awake business and professional men the city of Amarillo has attained a dominant position in the commercial life of this section of the state. One of the men who has justly earned credit for being a prominent member of that group is Mr. C. W. Figh of the McDonald Auto Supply Co.

It is because of the successful operation of such businesses as his that the city of Amarillo has earned the reputation of being one of the more progressive cities in this district.

C. M. Figh is a man who has been conspicuously successful in business in spite of the fact that he has repeatedly neglected his own affairs to devote a part of his time and efforts to the successful promotion of some civic project.

This writer considers it a privilege to include Mr. Figh in our Amarillo review and to publicly give him credit for his contributions to the general welfare not only of his own city, but of this entire district as well.

Gladys M. Glenn

A city grows and prospers by reason of the public-spirited men and women who take an active interest in its development. Amarillo has its share of these civic minded people and one who is deserving of recognition is friendly, likeable Gladys M. Glenn of the Musical Arts Conservatory of West Texas. Her executive ability and great personal charm have been major factors in maintaining her conservatory of music in a prominent position in music circles of the district. Mrs. Glenn has not only in her professional activities but also in her attention to civic duty assumed a leading position in community affairs.

She has always been ready and willing to contribute her time and energy to the promotion of any project which promises to benefit the community as a whole. She has often sacrificed her personal interests to be of assistance to the city and such people are deserving of commendation and support.

We congratulate Gladys M. Glenn and predict that the future will bring her even greater success.

JUST THAT WAY

. . . or how to make it. "All you need is a cow and a churn."

G. E. and A. W. McDavid

The city of Amarillo has assumed its place of importance in the Panhandle because of the efforts of far-seeing business and professional men who have developed the natural resources and extended the trade advantages of the locality. Two of the men who have taken an important part in many progressive movements are G. E. and A. W. McDavid of McDavid Bros.

They have devoted a great deal of their time and energy to the growth and development of Amarillo and this district and it is fitting at this time that we attempt to express in a small way our appreciation for their unselfish contributions to the general welfare.

They are men of wide acquaintance, whose many friends admire and respect in them those virtues which inspire confidence and promote good feeling. Their upright business methods are a credit to their high sense of honor. We congratulate G. E. and A. W. McDavid on their splendid record of service and wish for them continued success.

D. A. Park, Jr.

It is fitting in this review of progressive Amarillo business men that we acquaint our readers with the man to be credited with having maintained the Park Farm Equipment Co., in the enviable position it holds in the rural life of this district. That personality is Mr. D. A. Park, Jr. whose genius for organizing and for converting new ideas into actual deeds has played a vital role in the distinctive reputation which the Park Farm Equipment Co., now enjoys throughout the Panhandle.

Mr. Park has found time in addition to his business activities to give thought and energy to community projects. He is a citizen whose talents have been steadfastly devoted to the best interests of the city. He has been successful in his own business and in promotion of the general welfare of the community. We are glad to pay this brief tribute to him and to say this district owes much to the many benefits which D. A. Park, Jr. and his company have rendered to the people.

Wm. Freeman

Mr. Wm. Freeman of the Liberty Cola Dist. Co., is one of those men who has always done his bit to maintain the prestige of the city of Amarillo as the leading metropolis of the Panhandle. He has always worked for the development of the city and his many services are worthy of sincere appreciation.

Bill Freeman has proved himself worthy of extended mention and these few words are not really adequate recognition of the many services he has performed in the promotion of public welfare. His well-earned success as a business man is easily understood knowing as the people do his widespread reputation for the honesty which characterizes all of his business dealings.

Mr. Freeman is completely aware of his civic responsibilities and he is wide awake to the many opportunities for service. He is always ready and willing to lend his support to any project which promises to benefit the community as a whole. We compliment Bill Freeman on his accomplishments and wish for him continued success.

H. C. Thomas

Our issue today proposes to call the attention of our readers to some of those progressive business and civic leaders who have contributed their share of time and energy to the building up of Amarillo and the surrounding territory to the position of prominence which it enjoys at the present. One of these men to which we wish to direct attention to Mr. H. C. Thomas of the Thomas Bakery, a business man who has never spared himself in his aggressive march forward. He is a man whose competitors respect as much as do all others with whom he comes in contact.

H. C. Thomas is at all times conscious of his civic responsibilities and may be depended upon to meet in every detail the many opportunities which present themselves to be of service to the city. Mr. Thomas' record of achievement is one of which he may well be proud. His value to the city, and this district is an established fact and we hasten to give him the credit which is his just due.

A pretty young nurse was selling poppies. The salesman told her that he would give her a $5 bill for a poppy provided she would promise to nurse him if he ever went to her hospital. She promptly agreed.

"By the way," he asked "Where is your hospital?"

"I'm at Queen Charlotte's Maternity Hospital," meekly replied the pretty nurse, putting the five spot into the box.

A. C. Meier

The true value of a citizen is not guaged by his personal success but rather by the manner in which he shares that success by his contribution to the community in which he lives. A city grows and flourishes according to the number of public spirited men and women who compose its population.

A. C. Meier is one of those men who has given much toward the development of Amarillo. He has turned his personal success in the business field to the advantage of the people as a whole, and has accomplished much toward making his city a better place in which to live.

Mr. Meier's ability to equitably adjust all types of insurance claims has raised him to a position of leadership in his field of activities and has gained for him recognition as one of the city's more progressive business men. We compliment A. C. Meier in this Amarillo review and wish to offer him this small evidence of our esteem.

P. E. Hooks

Because this is a period of growth and expansion for Amarillo those business leaders who had the foresight and ability to lay their plans so as to be able to take advantage of those conditions are entitled to more than ordinary acclaim. We are therefore glad to pay tribute to P. E. Hooks of the Lydich Roofing Co., Inc., for he is becoming a well-known figure in the business life of the city. His peristent optimism and steadfast belief in the continued prosperity of the people of Amarillo and vicinity are characteristics which are deserving of our highest praise.

Mr. Hooks has always shown a willingness to do his part in civic advancement, and has contributed repeatedly of his time and energy to the welfare of his city. We believe that this type of business leader is entitled to our sincere praise both because he has achieved success in his private affairs and because he is willing to contribute to the public good.

J. H. Herbert

Every progressive, successful business man in Amarillo contributes in some manner to the growth and progress of the city. And a man who has always done his bit in both civic and business activities is Mr. J. H. Herbert of the Herbert Drug Co., which, in addition to carrying a full line of drug sundries, is a store where pharmacy is a profession and not a side-line.

The prominent part that the Herbert Drug Co. has played in the business and civic life of Amarillo and vicinity mirrors the progressiveness and ability of such men as J. A. Herbert. He has at all times been steadfast in his devotion to the city and the surrounding country and on many occasions lent his support to the successful promotion of meritorious civic projects.

Amarillo and this district are fortunate to have such a man as Mr. Herbert in a position of responsibility and service and this newspaper feels that it merely reflects public opinion in paying this brief tribute to a man of such worth.

R. H. Highfill

In compiling this review of progressive Amarillo business men we have endeavored to select those men, who, by the manner in which they have conducted themselves and their business, have caused the public to spot in them certain qualities over and above the average. Such a man is Mr. R. H. Highfill of the Kraft Cheese Co., who is well known and has many friends in Canyon.

Mr. Highfill's main interests have not been solely confined to his own private affairs and the conduct of his business, but have also included the development of those projects of a civic nature which come within the scope of his activities.

R. H. Highfill is a man of wide experience whose exploits in the business and civic life of Amarillo and vicinity merits more than passing attention and this writer is privileged to pay this tribute to such a man as he.

Chas. Lambie

Mr. Chas. Lambie of the contracting firm of C. S. Lambie & Co., is one of those men who has helped Amarillo grow and who has at all times assisted in every manner possible to promote that growth. His principal object in life has been to see his city take its proper place in the Panhandle, and he has helped whenever help was needed to obtain that objective. The community has gone forward on the impetus supplied by men like Charles Lambie and it continues to progress through their efforts.

This is but a small expression of gratitude to one of the men who has toiled for an ideal, and who has gradually seen that ideal take shape. Space would not permit the enumeration of the many services performed for Amarillo by Mr. Lambie even if such enumeration were necessary. It is sufficient to say that we recognize in him a leader in civic enterprise; that we respect his opinions, and that we depend a great deal on him and men like him for future guidance. We are glad to pay this brief tribute to a man of such sterling character.

C. W. Moser

In critical times such as these, it takes business men of more than average ability and optimism to carry on their operations successfully. In making this statement the man we have in mind is Mr. C. W. Moser, the new manager of the Mid-Central Fish Co., in Amarillo. His contagious optimism and freely expressed belief in the future prosperity of Amarillo and the Panhandle are characteristics which we appreciate in a business leader.

Mr. Moser has already made a large circle of personal friends as well as business associates in the conduct of his business. He has begun to take an interest in community activities and has shown a willingness to shoulder his share of the civic load.

It is men like C. W. Moser who, bcause of the successful conduct of their business and private affairs and their willingness to contribute to the public good, are wholly deserving of a few words of commendation. It is a pleasure to pay him this brief tribute.

L. Wood Jackson

There are many men in their chosen field who are prominent, but will not permit much to be said about their achievements. It is however, public property every time a man reaches a position in any community where he is generally recognized as a leader in his line. Mr. L. Wood Jackson, well-known consulting engineer, has always done his work effectively, even though it has been accomplished in an unobstrusive manner. And it is our privilege to include him in this Amarillo review.

Mr. Jackson, even though he may be otherwise occupied, always manages somehow or other to do his bit in any movement calculated to benefit the community. His modesty, however, will not permit him to say the things about himself which are said by his friends, who would also tell you that his professional conduct is a credit to his high sense of honor. He is a man who well deserves more credit than accorded here.

Come in the evening, come in the morning,
Come when expected, come without warning;
Thousands of welcomes you'll find here before you,
And the oftener you come, the more we'll adore you.
—Old Irish Rhyme.

Dimmitt Is District Title Winner

Bosley Captures District Honors

Referees Say Contestants Showed Sportsmanship

One of the most important tournaments ever held at Canyon High is finished; it ended in the finals Saturday when Dimmitt basketeers heaped five points over the total Hereford score in the finals. Official tally is Dimmitt 22; Hereford 19.

Selected for the all-district team were Curtis, Dimmitt and Trieder, Friona, forwards; Hill, Hereford, center; Weems, Hereford, and Bosley, Canyon, guards. Each man selected for this honor will receive a silver basketball.

Speer Presents Awards

As a climax to the tournament, Superintendent J. B. Speer presented the awards, a first place trophy to Dimmitt boys, a second-place trophy to the Hereford basketeers. After the presentation referees Milton Morris and W. W. Nicklaus and the coaches and captain of both the Dimmitt and Hereford squads made short speeches.

Previous to entering the finals, Hereford had fought Friona, and Dimmitt had placed over Dumas for the semi-final honors.

All through the tournament the Dimmitt boys showed their superiority over the other teams, being the only hoopsters not to lose at least one basketball battle.

Canyon Starts Tournament

Setting the ball rolling, or rather flying, Canyon lost to Dumas at 10 a. m. Friday by a score of 28-30. This game was followed by a Friona triumph of 33-29 over Hereford at 11:00. On Friday afternoon the Dimmitt teamsters gave the first hint of the final outcome of the tournament by winning over Friona 39-27.

"Canyon is very fortunate in having been host to the district basketball tournament this year. I believe that I have never seen better sportsmanship than was shown by the contesting teams," said Superintendent Speer.

BE CONSIDERATE

Groans of pain shook Canyon High School Friday as a body rolled head over heels down the stairs and lay limp on the bottom step. This person was one of those people who shoved everyone else out of their way and ran madly down stairs, two steps at a time to get to the district basketball tournament before anyone else.

No, this didn't really happen, but it could have so easily; since everyone was in such a hurry between games. Frequently students are rushing no where and do nothing when they get there. All that they can think of is "Hurry, and beat those other students."

These acts are attempted at the expense of others who might value their necks more than the rude jumper does. Let's consider our neighbor!

Whiteside Wants a Uniform--Well, CHS Wants Whiteside

MISS HELEN WHITESIDE

"What a dive—from dry West Texas into the mighty Waves," commented Miss Helen Whiteside, former physical education and science teacher, who is now a member of Uncle Sam's armed services for women.

For four years Miss Whiteside has taught in the Canyon High School and "really you don't know how much I'm going to miss the old rut," she said. "This jump that I've made is really just changing uniforms, however, for on February 25 I will swap my physical education suit for a Wave attire. After completing my basic training in Iowa, I hope to be shipped away off because, after all, why not get some grand experience in traveling while you are at it."

As "Whitesides'" father is a minister, she has been a resident in many Texas towns including Terrell (home of an insane asylum), Commerce, Greenville, Paris, Decatur, and Wichita Falls. After graduating from high school in Greenville she drifted to Southern Methodist University where as a college freshman, she joined a sorority and had a swell time.

This couldn't last, however, for the next three years, Miss Whiteside entered East Texas College at Commerce and settled down to a study of her two interests, physical education and science.

"In both high school and college, I served as a comedianne in plays and don't be surprised when I take my place on the stage with Robert Taylor after the war."

Four of this new Wave's summers were spent in directing such field sports as hiking and dancing in Camp Wabun Annung, a girls' summer outing near Kerrville. "But I've never enjoyed anything more than just spending the night in Palo Duro where you cook and live as true westerners," she stated.

While here in Canyon, Miss Whiteside has sponsored the pep squad and drum corps, and three different classes in school.

Students Conduct Health Campaign

Since one of the requirements for every member of the Victory Corps is to be participating in a physical fitness program, the third year home making students and Miss Rhita Sullivan, instructor, conducted a student poll concerning good health habits, good foods, and good lunches.

Typical questions and the results obtained in this poll are:

1. Do you eat breakfast regularly? 212 do while 41 do not.
2. Do you eat lunch regularly? 187 do while 16 do not.
3. Do you bring your lunch to school? 109 do and 86 do not.
4. Do you go home for lunch? 78 do and 114 do not.
5. Would you buy milk or chocolate at noon if it were made convenient for you to do so? 164 will while only 26 will not.

This poll will be used as basis for action jointly with the Victory Corps and the home making students.

"Because most of the students do not realize how important it is to be individually physically fit, we are emphasizing this fact first," said Miss Sullivan, director.

Classes Designate New Officials

Because of the short time allotted to class meetings last Friday, some of the classes did not have time to discuss any important business. Several of them, however, elected new officers, sponsors, and roommothers.

In the seventh grade, a new sponsor, Mrs. Floyd Dunsworth, was elected, while Jack McBroom was chosen to fill the office of dog-catcher.

To assist Mrs. Tom Gooch, additional roommothers who will serve the eighth grade are Mrs. Joe Currie and Mrs. Taylor Evans.

Replacing officers who resigned at the end of the first semester, Evelyn Garrison, president; Sue Ann Moreman, vice-president; and Richmond Hales, bouncer, were chosen as freshmen officers.

Games Will Test Basketeers Skill

Postponed and postponed, intramurals will now be played in about four weeks. Organized practice will begin the first or second week after the present six weeks ends and will be held for two weeks.

Each class will have one representative to select coaches who, besides choosing the players, will arrange for the use of the high school gym for practice purposes. Two teams will practice each day from 9:30-10:00 or from 5:00 to 6:00.

All games will be played at noon and the final game will be sponsored by the press club.

"Do you think that in the case of Senator Blowfill the office sought the man?"

"No. It was merely running away from his predecessor."

Professor: "Didn't you have a brother in this class last year?"

Student: "No, sir. I'm taking it over again."

Professor: "Extraordinary resemblance, though! Extraordinary!"

A little sincerity is a dangerous thing, and a great deal of it is absolutely fatal.—Oscar Wilde.

Beware Coughs from common colds That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Parties Entertain Grade Students

Among the Valentine parties sponsored in the grade school Thursday and Friday of last week was the one sponsored by Mrs. T. W. Collins' first grade.

Members of the class colored the paper napkins and made the post office into which the valentines were dropped. Miss Collins brought to class a small gas stove on which the first grade girls made cookies for the party.

"I think the students enjoyed this unit more and learned more from it than any other in which they have participated this year," commented Mrs. Collins.

Roommothers of the other classes furnished refreshments for various parties in celebration of this Valentine season.

Simms Becomes Regular Teacher

To be permanently situated in the position of teaching seventh and eighth grade math and ninth grade English is Mrs. Cecil Simms, a graduate of West Texas State College. Mrs. Simms, who replaces Mrs. E. L. Braudt, is a cousin to Ginny Simms, and an aunt of Dick Woods, midterm graduate.

Mrs. Dan F. Sanders, also a graduate of West Texas State College, has accepted the substitute duty of teaching of World and American history, typing, and bookkeeping, since Mrs. C. E. McDonald has resigned to become an instructor in war work in Amarillo.

Harrell Presents Cast with Tea

To the senior play cast and director, who have completed two weeks of necessary practice for the production, "Aunt Susie Shoots the Works," that will be given March 4, Mrs. Ed Harrell, a roommother of the senior class, served light refreshments last Thursday evening after play practice.

This play, a mystery farce by Fred Caldwell, entangles screams, laughter, love making, and gun shooting into three acts of fun for everyone.

Registering Gives Students Rest

Students of Canyon High will receive two holidays next week on Thursday and Friday as their parents register for point rationing.

Faculty members of both schools will help with the rationing that will take place in the grade school gymnasium and in the education building at the college.

To accommodate those who cannot be in town in the other days, the rationing will also be held Saturday, February 27.

Solos and Ensembles Add Fun to Rhythm Parade

Under the direction of Miss Mary Roberts, the Canyon High School music department will feature the second Victory Program of the year Friday night, February 19, at 8:00 o'clock, in the high school auditorium. War Stamps and Bonds purchased at the door will be the admission fee.

A variety of numbers by the band, chorus, girls' double trio, and seventh and eighth grade chorus classes will constitute the main program; solos and novelty selections are also included in the entertainment list.

Assistants Aid Department

Accompanists Mrs. Floyd Dunsworth and Miss Anita Davis, and vocalists Helen and Marvey Studer from Canadian, will assist the high school department.

Introducing and ending the program will be the theme "Marching Along with a Song of Victory," presented jointly by the band and chorus.

Seventh grade girls will sing "Barcarolle" by Offenbach; seventh grade boys, "Yankee Doodle"; seventh and eight grade boys, "El Rancho Grande" by Costello-Urang; eighth grade girls, "Neapolitan Nights" by Zamecnik; eight grade boys, "Home on the Range Medley" by Guion.

Groups Add Numbers

Betty Brown, singing "Serenade in Blue" by Gordon and Warren, Ellen Sanders, Sue Ann Moreman, Mary Ann and Max Bellah, playing a piano quartette, "Priests' March" by Mendelssohn will add attraction to the musical parade.

Girls' double trio number two will harmonize "Out of the Dust to You" by Lee; double trio number one, "Roses of Picardy" by Wood.

With four selections each the band and chorus will complete the repertoire.

Chauffeurs Guide School's Traffic

To create a safer environment for Canyon High School students after school hours, the eleven bus drivers are now patrolling the traffic in front of the building each day.

By starting at one end of the row of busses, the drivers will take turns directing the traffic. Those who will assist in this safety measure are Jim Brown, Hudson bus; Elmer Shepard, Ralph bus; George T. Shepard, Garrison bus; Harold Byars, Lakeside bus; Sam Hill, Canyon Independent Bus No. 1; W. J. Phelps, Canyon bus No. 2; A. B. Baker, Stone bus; Britton, Zita bus; Flugel, Trigg bus; Joe Tucek, Palo Duro bus; Henry Tidenberg, Jowell bus; and Jim Spencer, driver of a private car.

Officials Sponsor Speech Contest

At a meeting of the Panhandle Plains Superintendents' and Principals' Association at Amarillo on February 5, attendants decided to sponsor the Marvin Jones Speech Contest.

Each contestant will render an eight minute memorized oration on the subject of patriotism, public education, character building, or other topics of current national importance. This will precede a four-minute extemporaneous speech on a phase of his original subject which may be developed in greater detail.

Entries of one bonafide student from each school must be made to R. P. Norman, chairman, before March 1.

Provided by the Honorable Marvin Jones, a $68 gold watch will be given as first prize.

You think I am fighting for wages. For pay. For a glass more of beer. For better cigars. For costlier clothes. To get rid of rags. Well, so I am. But only incidentally. I am really fighting for life.—Horace Traubel.

False Editions Visit Junior Class Party

(These are the musings of a junior lass as she attended the junior masquerade party at Dorothy Bogert's, February 10.)

My, what attractive young girls! I don't believe I've seen them in class meetings, though their faces do seem familiar.

That one on the left certainly is wearing a lovely dress, and just look at that fitted jacket. It certainly does accentuate her youthful figure.

Goodness, what a lovely hat the second girl is wearing! But I rather like the half veil on the little black and white number the other has on.

"Girls" Have Priorities

Am I seeing wrong, or are those silk hose they are wearing? They must have priorities; the rest of us girls have to put up with these horrid rayon things. Oh well, I don't begrudge them, though their legs do look much nicer than most of the other girls' here.

Horrors! What on earth do they mean by wearing those awful looking low-heeled shoes. They certainly do make their feet look large, almost like boys'. Surely shoe rationing hasn't hit them that hard!

Now Miss Claryce Whitten and Mrs. Lorenzo Wirt are choosing the prize winners. Why are they taking the arms of those two lovely girls? I can't understand it; I hope they are not trying to make fun of them.

Dowd and Taylor Win

Miss Whitten is announcing, "I think the prizes rightfully belong to Bobbie Dowd and Lindsey Taylor."

Well, what do you know! Now that the two girls, or boys, are stepping up to receive their prizes, I can see why their faces seemed so familiar. Can you imagine those two men-about-town dressed as members of the weaker sex?

Goodness, I feel relieved! I was beginning to get worried. I'd certainly hate to have those girls for competition!

Ex-Students Visit Canyon Friends

During the past week, three ex-students of Canyon High, Denver Farley, Peter Meyers, and Benny Railing, returned home for brief visits.

Denver, second class seaman, has just completed a course at the machinists' school in San Diego, California, and visited his family and friends here in Canyon before returning to San Francisco for an assignment early this week.

Private First Class Peter visited friends, parents, and grandparents in Canyon Sunday after his completion of a mechanics course in the Marine Corps. Upon leaving the University of Oklahoma at Norman, his class had the highest rank of any graduating group.

Buck Private Benny visited his alma mater Monday. He is studying to be a bomber crew chief at the Amarillo Technical School.

Girls May Select Victory Project

Beginning a unit on clothing construction, the Homemaking II girls are making general wear dresses.

This semester the girls have already studied units on gardens and selection and care of clothing.

Among the variety of semester home projects from which the girls may choose is a Victory clothes closet project, which consists of cleaning the closet, providing equipment, airing, mending, and remodeling clothes.

In these days of global war the weather is considered a military secret, and as such it can no longer be a frank topic of discussion. This condition in itself makes the war right serious for Texans who long have emulated the weather itself in their discussions of it.

Thumbing through the files of the Panhandle Plains Historical Museum, we've run across some weather reports that can pass the censorship set up by the OWI and the armed services. These reports date back to the days when every cowpuncher was a meteorologist of the first degree; by squinting at the northern sky, watching his horse and the cows he drove, and mixing in a goodly portion of his own predicting, he could anticipate the weather right along with the mail order almanacs and the weather report calendars. The following relates one of the early tragedies of the Panhandle weather. It is an authentic story of fact that has almost become lost in the march of time.

In the winter of 1880-1881, two buffalo hunters, their worldly goods roped to the pack saddle of one small burro, came to the headquarters of the T-Anchor Ranch as they drifted south in search of the big bison. Judd Campbell, wagon boss for the T-Anchor, extended them the courtesies of the ranch in true western hospitality and suggested that since they were walking in the bitter cold they might wait until the storm broke and ride down with the T-Anchor wagon when it went south. The two hunters chose to go their way and set off toward the Canon Ceta to the south. They reached this camp and again refused the western hospitality as they pointed next toward the Tule Canyon by way of Gill's Camp. Two riders from this Camp met them and being wise in weather of the region, they urged the hunters to turn back and seek shelter at Canon Ceta; but the hunters, now deprived of their burro, who had "given out," remained obdurate and floundered on toward the south.

The rest of the story is not their own, but is the findings of the T-Anchor wagon crew which ventured out after the storm had blown itself out. First were the provisions of the hunters, next the bedding, then the pack saddle, and finally the bar lead, the caps, and the ammunition. Not far away the burro was peacefully grazing near a lake. The next morning one of the T-Anchor riders saw a hat sticking up over a bank; he circled the place and discovered one of the hunters sitting upright, dead and stiff. Near his heart was a big bunch of gray-backs, that region being the last part of his body to grow cold. The hunter had stumbled within ten feet of Gill's Camp, this being evinced by a torn fragment of his coat that was hanging on the plum thicket by the camp. The search of the body revealed plenty of matches. Wood was abundant. The other man has never been discovered and no grave or headstone has been marked as his final resting-place. Like the monarchs they hunted, they are but a memory.

This man was taught not to drink water

DRINKING WATER IS SCARCE in North Africa. And what there is, is likely to be bad.

So before our soldiers landed there, they were weaned away from water. A dash of iodine in their drinking water served the double purpose of disinfecting it, and making it taste awful.

By the time the boys landed in Africa, they'd lost all taste for water except in safe, prepared drinks.

The favorite prepared drink is lemonade. Field Ration K provides it—along with veal, pork, sausage, coffee, bouillon, malted milk tablets, biscuits, chocolate, and chewing gum—all in a 33-ounce pack.

Sounds like somebody was taking pretty good care of our boys, doesn't it? And that's right. American soldiers are the best-fed, best-equipped, best-cared-for in the world.

But keeping them that way takes money. So much money, that, to help pay for it, every one of us must *loan* at least 10% of his income to Uncle Sam through War Bonds.

War Bonds are a swell investment. They pay you back $4 for every $3. Save at least 10% of every paycheck with U. S. War Bonds.
